UAB-D-4

12 September 1956

**MEMORANDUM FOR: Utilization Advisory Board**

**SUBJECT: Exchange of Intelligence Derived from TALENT Materials**

1. General Cabell stated in his letter to the Chairman of this Board that we have "the important mission of stimulating the agencies participating in the TALENT Control System to exploit the AUTOMAT product to the optimum benefit for intelligence production without directly citing the source of the raw information produced by the source."

2. There are many capabilities for utilization of TALENT products located throughout the community. The interests of the individual agencies vary. It is important then that all interpretive reports produced by any one agency be available to all the agencies.

3. I recommend that a library of TALENT reports be established at AUTOMAT and that all agencies, as a matter of routine, place one copy of all reports in this library. I further recommend that full and free exchange of reports be established between agencies.

25X1

Secretary  
Utilization Advisory Board

The recommendation in paragraph 3 is  
APPROVED (DISAPPROVED) for the Board
